INDIA COMPANY**

* 521

1723, Antwerp. Stock certificate for 1 share. Black. Vignette of the Hapsburg crest at top center. The Imperial India Company was authorized by Charles VI of Austria to trade

with the East and West Indies as well as the African coast. Commodities traded included such items as coffee, tea, spices, gold, silver and silk. At the time the stock was issued in 1723, success was widely predicted and the issue was oversubscribed in a matter of hours. Investors were not disappointed, as the company paid very high dividends from the very first, frequently over 30% per year. In fact, the company was so successful that war was threatened by numerous competitor nations such as France and England. In 1731, partly in order to smooth the way for the accession to the throne of his daughter, Maria Theresa, Charles ordered the company to cease operations and begin liquidation, a process which took some 10 years. Each share had a par value of 1000 guldens, paid by the shareholder in 4 equal installments of 250 guldens. Payment of these installments is noted at the bottom of the certificate. Numerous notables sign the certificate, including, Pietro Proli, a well-known merchant of the day. This is the earliest stock certificate available to collectors, the only earlier known certificate being a 1606 piece in the Dutch Oost-Indische Compagnie owned by the Amsterdam Stock Exchange. *** 533**
1853, Louisiana. 125 pounds sterling bond bearing 7% interest. Black. Red overprint. Extremely attractive engraved multi-vignetted bond. Integral coupons at bottom. The Tehuantepec Company was formed as a result of a grant given to Don Jose de Goray by in 1842 by Antonio Lopez de Santa Anna, President of the Republic of Mexico. The grant stated the purpose of the company was to open "a line of communication...between the Pacific and Atlantic Oceans, through the Isthmus of Tehuantepec" in Mexico. Through a combination of canals (whenever practicable), railroads and steam-carriages, the Tehuantepec Company would provide a fast, commercially feasible link between the two oceans opening a profitable Asiatic trade via San Francisco and Tehuantepec. Support of the concept was widespread and included Judah Benjamin, President Fillmore, Daniel Webster and numerous other notables.
